

# Diversity, Equity & Inclusion in Corporate and Not-for-Profit Worlds

Diversity, Equity & Inclusion (DEI) are crucial for all types of organizations, whether they're small or large, for-profit or non-profit, private or public. These principles not only impact an organization's bottom line but also influence broader social issues. Our event fosters dialogue, knowledge sharing, and collaboration across sectors to enhance DEI efforts. Topics include workforce development, managing diverse generations and cultures, effective recruitment and retention, and crisis management. Panels include:

- Opening Fireside Chat: Keynote speakers from both corporate and not-for-profit sectors
- Intergenerational and Multicultural Workforce Strategies
- The Intersectionality of Leadership Commitment, Employee Retention, and Success
- Closing Fireside Chat: Crisis Response and Equity
- Plus networking breakouts throughout the day
